National Center for Education Statistics

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

This supplement was designed to use with the 1981-82 edition of the *Education Directory, Colleges and Universities.* Together, they contain the most current list of institutions in the United States and its outlying areas that are legally authorized to offer and are offering at least a 1-year program of college-level studies leading toward a degree. Specific requirements and criteria for being listed in the *Directory* are stated in detail in the Introduction to the 1981-82 edition and are not repeated in this supplement.

The supplement details institutions that have been added to or deleted from the list of eligible institutions found in the 1981-82 *Directory*. It also includes sections on mergers, name changes, location changes, and accreditation changes. When used with last year's edition, the index of schools included in this supplement provides easy reference to any changes that have taken place since the 1981-82 edition was published.

This publication was prepared jointly by the Eligibility and Agency Evaluation Staff (EAES) of the Office of Postsecondary Education (OPE), and by the University and College Surveys and Studies Branch (UCSSB) of the Division of Postsecondary and Vocational Education Statistics (DPVES) of the National Center for Education Statistics (NCES). EAES was solely responsible for certifying the eligibility and accreditation of institutions for inclusion in the *Directory* as well as this supplement. UCSSB was responsible for all other aspects of the information on which the publication is based.

Acknowledgments

This publication was made possible by the cooperative endeavors of large numbers of persons in the National Center for Education Statistics and in the Office of Postsecondary Education. Those who made contributions worthy of particular note are Joseph M. Hardman, Margaret W. Hansley, and Fred Sellers, of the Eligibility and Agency Evaluation staff, who provided certification of the eligibility and accreditation of institutions for inclusion in this Directory.

Processing was completed under contract by VSE Corporation; Jack Z. Moore was responsible for the overall direction of the project. Working on the survey were James P. Lurz, Elizabeth E. Martin, and M. Jane Robinson.

1.1— Institutions of higher education and branches, by control and level: outlying areas, 1975-76 to 1982-83 4

2.— Institutions of higher education and branches, by control, level, and State or other area: 1982-83 5

6.— Institutions of higher education and branches accredited by individual accrediting agencies, by control and level: 1982-83 8

Methodology

The request for information to be published in the *Education Directory* is usually included in the Higher Education General Information Survey (HEGIS) package mailed to institutions of higher education or to State agencies that cooperate with the National Center for Education Statistics in data collection. Copies of the form "Institutional Characteristics of Colleges and Universities" were not included in the package sent to institutions in summer 1982.

NCES, however, was able to obtain minimal information necessary to produce this supplement through the combined efforts of the Eligibility and Agency Evaluation Staff (EAES) and the NCES staff. EAES provided notices of initial eligibility for listing in the *Directory* as well as changes in accreditation status, which were matched against NCES records for 1981-82 and updated for 1982-83. In addition, any changes received by NCES through the submission of other HEGIS surveys or directly by telephone from the institutions were also verified and included in this publication. All changes verified before October 25, 1982, are included in this supplement.

How To Use The Supplement and Index

This supplement was designed to use directly with the 1981-82 edition of the *Education Directory, Colleges and Universities.* Users of the *Directory* should first locate the institutional listing of their choice in the 1981-82 edition and then refer to the index in the *Supplement* to verify whether or not the institution has undergone any changes for the 1982-83 academic year. If you are unable to locate the institution in the 1981-82 index, check the index to the *Supplement* to see if the institution has been added or reinstated since the last publication.

The various sections of this *Supplement* are arranged by type of change, and schools are listed alphabetically by State. The index is arranged in strict alphabetic sequence and lists all institutions referenced in the *Supplement;* appropriate page references are given.
